JUNE 2017

Getting hot, hot, hotter!!!

PAGE 1 OF 2

Hi there folks, I am starting this a bit early, just in case I am still a little foggy after the surgery. Hopefully I had it, after all of the problems. Anyway enough of that. Hope you are enjoying the summer and getting out of the heat. Remember the club is a cool place to be in more ways than one.

There are classes to attend, things to learn and friends to visit with, chat and have delicious snacks, provided by our dear members. There is no time like the present to start getting ready for the Fall shows, which will be here in the blink of an eye. The summer is a good time to learn a new stitch or technique, as you have time to practice and hone your new skills. Maybe you will get so good that you will want to teach. If so, just let me know so I can book you a time and get the paperwork ready.

## CLUB HOURS AND RULES

Monday – 6pm – 9pm

Wed. 10am – 4pm\*

\*sometimes if it very hot we close a little early.

Our club is a **NO**: scent, pet and politics free club. Our members have allergies, so be sensitive to them, and curb the scents.

First of all, I can't believe it is June already, where did this year go? Didn't we just have our picnic about one minute ago in April? Well time does fly when you are having fun.

We are no longer planning on a trip to Bead World each third Thursday of the month. Instead if you want to go another day, just give Karen, the owner, advance notice and she will contact the Phoenix location to let them know we are coming so we can get the 30% discount. It has to be by advance notice so she can plan!! There are also special coupons at the monitor's desk, so check them out.

I have not heard from anyone else about being on the Holiday Committee, so it is set with the following people; Laura Hankin, Charlene Elsasser, Marcia Harmel and Maureen McGinn. We will have a meeting in the not too distant future to start planning our festival of food and fun.

## CALENDAR PAGE:

	2- bead
7- bead	9- bead
14- bead & Bd. Mtg.	16- bead
21- bead	23- bead
28-bead	30- bead

Remember, this is your club and the best way to make sure it stays our club is to Monitor. It is not hard, there is a book at the desk outlining your duties, and there is always someone there to help and answer questions. You get to see the overall running of the club, meet new members and see what all of your fellow members are up to. There are so many new clubs looking for space, we do not want them to take ours. The only way to make sure we have a continuing space is to utilize the ones we have. If you need more proof, just look what happened to the clubs in the rooms opposite ours!

Writing to you after the surgery, thank goodness I did this earlier as I am still a little foggy, no news there. Hope to see all of you in a few weeks. Thank you all so much for your kind thoughts, they are greatly appreciated.
